

Recommended Use: The Kidz-IDz Medical Car Seat ID Tag has been developed as a safety measure to quickly identify your child in case of an emergency. Placing this tag on your child's car seat will help ensure that they get the medical attention they may need in case of an accident, even if they are traveling with a caregiver other than their parents. Please fill out the tag and place it on the right corner or center back of your child's car seat, so that it is easily visible. Adhere the tag to the car seat with clear packing tape, or another durable adhesive product. Use one tag for each child seat.
